

Accessing Class videos in the library

- You have access to class videos on the library PCs. Simply logon to a PC in the library and under computer folders you will find a network drive called videos.
- You can download video through the Mac machines as well. However, there are some extra steps involved. Please follow the instructions on the rest of this document for copying the files through iMacs in the library.

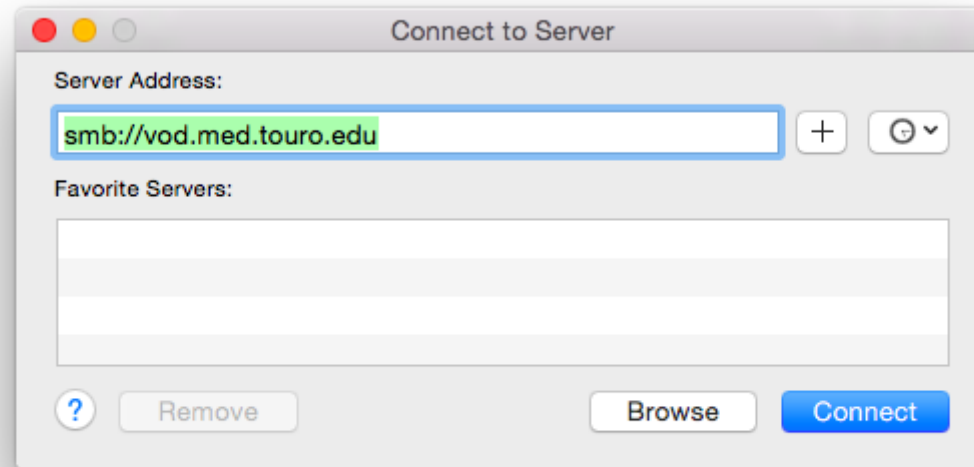

Connecting to Videos Network Share On the Library iMacs

TouroCOM IT Department

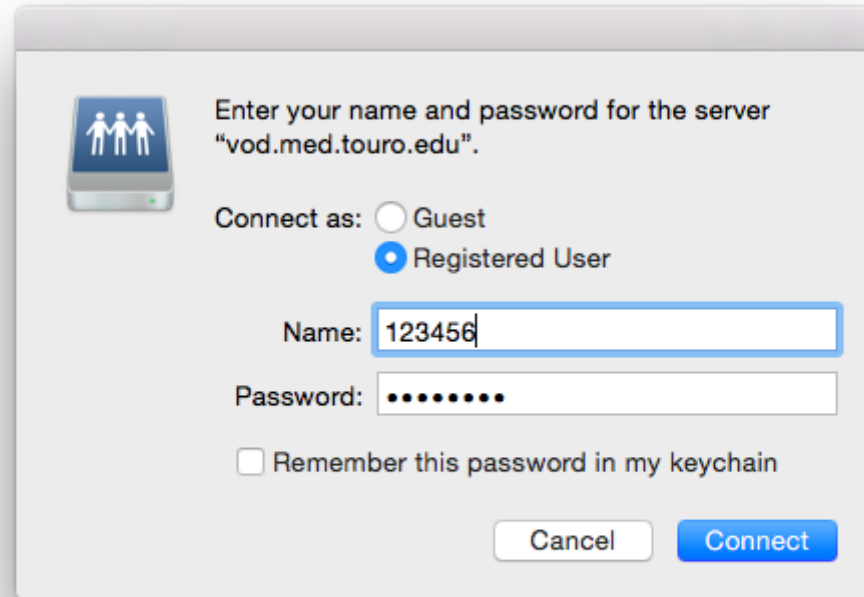

Open “Connect to Server...”

Type in `smb://vod.med.touro.edu` and press connect

Type in your student credentials, the credentials you use for the WiFi.

Enter your name and password for the server "vod.med.touro.edu".

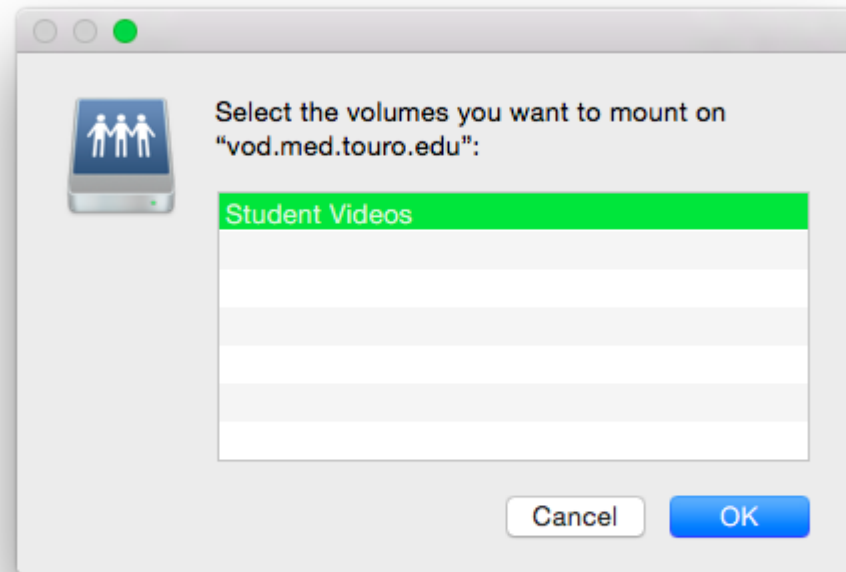

Connect as: Guest
 Registered User

Name:

Password:

Remember this password in my keychain

Press OK to mount volume

Mac OS X will open a finder window with the Student Videos network share volume.
